OUTMANEUVERED.

Gen. Yule's Brigade Avoids the Enemy and Arrives at Lady-smith Amid Rejoicing.

THE MEN ARE GREATLY FATIGUED.

Part of the Bridge Over Sunday River Was Destroyed to Prevent the Boers Transporting Guns.

Martial Law Proclaimed Throughout Natal as Soon as Gen. Yule's Men Have Reached Gen. Buller's Camp.

LADYSMITH, Oct. 27.—Gen. Yule's brigade arrived here early Thursday morning and was received with great enthusiasm. The column left Sunday river valley at 6 o'clock Wednesday evening in a heavy rain, which continued throughout the march.

In spite of the great fatigue of the men, the retreat was effected in masterly fashion. Gen. Yule's completely outmaneuvered the enemy.

The services rendered by the colonial guides deserves special mention.

Part of the bridge over Sunday river was destroyed to prevent the possibility of the enemy transporting guns.

LONDON, Oct. 27.—The official announcement of the joining of Gen. Buller and Gen. Yule's column has brought great relief, and all the more so in view of the fact that later dispatches have shown that only the incapacity of the intelligence department of the Boers saved Gen. Yule's column from a great disaster.

It seems that on Friday night Dundee was full of alarms. Heavy firing was heard at 1 o'clock, and again at 4 o'clock, but the Boers soon after stopped the Boer cannonade.

Saturday passed in the same anxious manner, in momentary expectation of an attack. The British finally evacuated, taking all they could, but leaving plenty behind for the Boers to loot.

DURBAN, Oct. 27.—Martial law has been proclaimed throughout Natal. It is reported that a battalion of the rifle brigade.

CAPE TOWN, Oct. 27.—The transport Zayashia, whose voyage from Liver pool was delayed by difficulties with her machinery, has arrived with a battery and a half of the nearest town.

Her sister transport, with an auxiliary force, which has been similarly delayed, is daily expected.

LONDON, Oct. 27.—Sir George Stewart White, according to a dispatch from Cape Town to the Daily Mail, will attack the Orange Free State forces in Natal as soon as Gen. Yule's men have rested. Strong British reinforcements are being sent from the Cape.

LONDON, Oct. 27.—The Daily Mail publishes the following dispatch from Pietermaritzburg, dated October 24:

The residents of Dundee had a weary tramp of 40 miles to the nearest town, where they arrived in a pitiable plight, having lost everything. The refugees included Harry Beecroft, former premier of Natal, and the Dundee magistrate. One of the Dundee people said that all day Saturday troops were arriving and Commander Gen. Joubert's headquarters at Dannhauser, from the Transvaal border bringing reinforcements.

There must have been 10,000 in the hills around Dundee. The natives reported that the Boers took 10 wagons loaded with their dead from the field of the first battle, and that among the killed were several Natal, Dutch, and a feature of the engagement was that three Englishmen who were impressed at Krugersdorp, fought with the enemy, and were captured.

Two others greatly affected, said they were compelled to fight.

APACIFIC CABLE.

This and Foreign Governments Which Would Be Affected Considering the Matter.

WILL BE BROUGHT BEFORE CONGRESS

In a General Way the Project Is for the Construction of a Cable of Four Links.

San Francisco to Hawaii, 2,100 Miles; Hawaii to Wake Island, 2,044 Miles; Thence to Guam, 1,933 Miles; Guam to Manila, 1,350 Miles.

WASHINGTON, Oct. 27.—In official and diplomatic circles attention is being directed to the question of a Pacific cable linking this country with the Philippines and points beyond, and the United States government and the foreign governments which would be affected by the cable are now actively considering the subject.

This subject has been an assembling data and prepping cable maps with the expectation that the matter will be brought to the early attention of congress.

In a general way the project is for a cable of four links, viz: from San Francisco to Hawaii, 2,100 miles; from Hawaii to Wake Island, 2,044 miles; from Wake Island to Guam, 1,933 miles; from Guam to Manila, 1,350 miles.

These landing points are all within the control of the United States, our flag having been raised on Wake Island not long ago. This would connect all the American possessions in the Pacific by a line crossing no foreign territory. Besides this, the plan permits of an expansion so as to secure two outlets to Asia, and the far west end of the line would be from Manila to the Japanese island of Formosa, from which island Japan has built a line to the Japanese coast and the main land of Asia.

The second outlet would be from Hawaii south to Fanning's island, at which point the newly projected British cable from Vancouver to New Zealand crosses.

The foregoing projects would be private enterprises, but a government undertaking. The government, it is urged in support of the projects, would be not only free from the present high charges and from the far end of the line, but would be able to handle the business, but the line being opened to public and commercial use at a reasonable rate would afford a profitable return to the government.

Foreign governments which would be affected by this project—namely Russia, the United States, Great Britain, and Germany—have begun to show some concern over it, and it is understood that the government has been sounded of late from several foreign quarters to learn what its plans are.

Senator Depew Gives Out a Statement of the Terms of the Document—Estate Is Estimated at \$70,000,000.

NEW YORK, Oct. 27.—Senator Depew Thursday night gave out a statement of the terms of the will of the late Cornelius Vanderbilt. It shows that the fortune is estimated at \$70,000,000.

Alfred Guyan Vanderbilt will get about \$30,000,000. He thus becomes the head of the family. The will gives Cornelius Vanderbilt about \$1,000,000. It gives to each of his remaining brothers and sisters about \$7,500,000. Alfred, of course, not included.

Out of the spirit of affection and for the purpose of satisfying all of the members of his family, Alfred Guyan Vanderbilt gives his brother Cornelius enough of his inheritance to make his fortune equal to that of the other members, namely \$7,500,000.

Depew says that Cornelius Vanderbilt has accepted this arrangement in the spirit in which it was offered.
